Notes

Peresoft's Cashbook for Accpac ERP is a financial program designed to monitor and execute banking transactions and reconciliations. It is meant to add functionality to Accpac as well as reduce screen changes and keystrokes.

Lionbridge has completed testing for the Peresoft software program, Cashbook for Sage Accpac ERP following the Sage Certification Requirements RC1 dated July 08, 2008.

Addendum

Cashbook performed as expected during testing. No crashes or fails occurred. Accpac's performance was unaffected by the addition of Peresoft's program. Accpac ERP remained intact after the uninstallation of Peresoft Cashbook.
